### Taxation

The taxability of benefits depends on how premium was taxed during the plan year in which you become disabled. If premium for the plan year is paid with **post-tax** dollars, your benefits **will not** be taxed. If premium for the plan year is paid with **pre-tax** dollars, your benefits **will** be taxed. If premium for the plan year is paid partially with post-tax dollars and partially with pre-tax dollars, then a portion of your benefits will be taxed.

Next Steps

Calculating Your Premium

1) Write down your age, elimination period, and annual salary.
2) Divide your annual salary by $100 to determine your number of units. If your annual salary exceeds $160,000, use $160,000 as your annual salary.
3) Refer to the rate table below to find your age bracket and appropriate rate.
4) Multiply appropriate rate by number of units to actual annual cost
5) Divide annual cost by the number of paychecks you receive each year.

*Your rates will increase as you move into the next age bracket

Formula for Calculation

\[
\frac{\text{Annual Salary}}{100} \times \text{Rate} = \frac{\text{Your Annual Premium}}{\text{# of Paychecks}} = \text{Cost per Paycheck}
\]
